**Consent Agenda**

Approved Meeting minutes for January, 2009.

**OLD BUSINESS**

Agree to have Mike Randall present the Geology and Hydrology Maps of the Bradshaw's to the town of Dewey-Humboldt for the town to purchase. David Nystrom will get with Mike to get this accomplished.

**NEW BUSINESS**

- 6.1 Jack Hamilton talked about what the definitions of assured water supply and water rights meant and how that applied to Dewey-Humboldt.
- 6.2 Treesha deFrance talked about a private wells owner guide that she got from the University of Arizona. She showed us a web site [www.sahra.arizona.edu/wells/](http://www.sahra.arizona.edu/wells/) that showed us a lot of information about wells in the local area. Unfortunately it is several years out of date but it still shows a lot of information.
- 6.3 Len Marinaccio talked about a letter the town received about vegetation possibly blocking water flow in Agua Fria River. It was suggested the town manager should contact flood control to find out what their position is on the issue.
- 6.4 Jack Hamilton brought this issue up because a consul candidate is using this item as a campaign issue. The general consensus was that this was probably not a good idea because there is no known aquifer in the area.
- 6.5 A motion was passed that Len Marinaccio express to council that the GRAC Committee recommends hiring a water specialist to determine water sustainability in the community.
