

Commissioner Manzo asked if this the General Plan of 2009. PC Brown said yes, it was adopted May 19, 2009. He asked if he was prepared to discuss it. Commissioner Manzo stated he would like the other Commissioners to read it first.

Vice Chair Siereveld asked if anybody would like to have discussion on it now. Commissioner Ullmann stated he thought everyone should take some time to read it.

PC Brown suggested to take it in sections, as that would be the easiest way to approach it. He also suggested to take notes as you are reading it, then when we get together, we can discuss it.

Vice Chair Siereveld asked if there are any points of interest. PC Brown said yes, the Introduction lays out the process that was undertaken for the General Plan. When you get into the Land Use Element, you'll see that they lay out different land use districts that, in most cases, co-inside with your land use districts. The General Plan and Zoning were not developed together. The General Plan was a special area planned by the County, and then later zoning was super imposed on the area. You will see that there are some conflicts in there and I would challenge each of you to point those out to us. When we get into the process of updating the General Plan, those are the things that we need to fix, so that we can make the General Plan more conduit with Zoning, wherever possible. You'll see where the plan established goals and objectives, those I would have you look at as it provides some statistical data about populations, land use disposition, etc.

Vice Chair Siereveld asked if this is the main thing that we need to pay attention to at this time. PC Brown said to look at the goals and objectives, as they lay out what the community wants to try to accomplish and the rest of the plan is how they plan to accomplish that. Later in the plan, you will see there is an implementation program where they identify where the responsibilities for each of the goals and objectives lies.

Vice Chair Siereveld asked if anyone had any questions.

PC Brown stated if you are satisfied with that approach, we will have it on your next agenda to begin that discussion. If you have any questions, feel free to call me.

10. Public Hearing Agenda.

None.

11. Adjourn.

Vice Chair Siereveld made a motion to adjourn, seconded by Commissioner Ullmann. Vice Chair Siereveld called for the vote on the motion: Commissioner Crofutt – aye; Commissioner Manzo – aye; Commissioner Ullmann – aye; Vice-Chair Siereveld – aye. The motion passed unanimously. The meeting was adjourned at 6:14 p.m.

Vice Chair Jeff Siereveld

ATTEST:

Beth Evans, Interim Town Clerk
