

In the following article that appears in the January 2022 Newsletter, there is an incorrect statement (see the highlighted text below).

The Town Council has never voted in regard to having a Code Enforcement Officer on staff. A retraction of this statement will appear in the February 2022 Newsletter and will be also noted on the Town's Website. We acknowledge and apologize for this error.

## **CODE ENFORCEMENT**

If you have a code enforcement complaint please fill out a Complaint and Investigation Request form. These forms are available at Town Hall and online at dhaz.gov under online forms. Complaints cannot be documented over the phone, as the Town needs to keep a record of all complaints and investigations by both logging and filing them. If there is a code violation on a property, the property owner complained against will be sent a letter by whomever investigated the complaint.

The Dewey-Humboldt Town Council voted against hiring a Code Enforcement Officer so complaints and investigations are currently being investigated by the Town's Building Official and Public Works Supervisor. Due to the depth of their daily work, complaints may not be investigated immediately. If you would like to follow up on a complaint you filed, please call Chelsea at Town Hall at 928-632-7362. We do our best to keep all complaints confidential however, should you file a complaint, it is public record and if an individual asks, we legally have to provide the name of who filed the complaint.
