## COVID-19 UPDATE: Wednesday March 30, 2022

Data continue to show the importance of vaccination and booster doses to protect individuals both from infection and severe outcomes of COVID-19. During the recent Omicron surge, those who were boosted were 21-times less likely to die from COVID-19 compared to those who were unvaccinated, and 7-times less likely to be hospitalized. CDC continues to recommend that all eligible adults, adolescents, and children 5 and older be up to date on their COVID-19 vaccines, which includes getting an initial booster when eligible.

Following FDA’s regulatory action today, CDC is updating its recommendations to allow certain immunocompromised individuals and people over the age of 50 who received an initial booster dose at least 4 months ago to be eligible for another mRNA booster to increase their protection against severe disease from COVID-19. Separately and in addition, based on newly published data, adults who received a primary vaccine and booster dose of Johnson & Johnson’s Janssen COVID-19 vaccine at least 4 months ago may now receive a second booster dose using an mRNA COVID-19 vaccine.

**YRMC Community COVID Vaccine Walk-In Center:** Monday through Friday 8am to 5pm Frontier Village Center, Suite 49, 1781 E Hwy 69, Prescott, AZ 86301. Offering COVID Moderna primary series and booster vaccines to adults 18+, no appointment necessary. Visit [yrmcvax.org](http://yrmcvax.org) or call 928-708-4556.
